

Empower Your Development with Novus' Internet Solutions

Enhanced Bulk Internet Services for Developers and Building Owners

Optimize your property value and resident satisfaction by leveraging our expertise in providing high-speed Internet access tailored for your brand new development. Our Preferred Building Program (PBP) ensures your projects deliver an enhanced living experience with reliable connectivity and value-added services. Here's what you can expect:

Revenue-Generating Opportunities

Flexible options to either gain revenue from your development or pass those savings on to the tenants:

- Direct Revenue Sharing: Earn revenue from standard internet sales made directly to residents, with additional revenue from Novus' Beam TV and phone services.
- Discounted Services: Receive a discount on high-speed internet services, allowing you to integrate it seamlessly into rental packages.

Exclusive Benefits With Novus' Preferred Building Program (PBP)

As a member of our program, you'll get:

- Enhanced Connectivity: Get up to two (2) GIG internet connections for amenity areas, supporting both Wi-Fi and wired connections.
- Amenity Enhancements: Improve resident amenity areas with branded Wi-Fi splash pages and communal TV connections.
- Includes free installation, technical support, equipment use while a member of the program.

Implementation and Support

Novus provides custom implementation of our services to ensure that we are meeting the specific needs of your development. We also provide continuous support to guarantee that the quality of service is being met.
